

Tayyaba Hidayat

Software Engineer & Machine Learning Enthusiast

☎ 03148574873 | ✉ tayyabahidayat63@gmail.com | Lahore, Pakistan

PROFESSIONAL SUMMARY

Motivated and high-achieving Software Engineering student at the University of Management and Technology (UMT) with a CGPA of 3.97/4.0. Passionate about Machine Learning, Artificial Intelligence, and software development. Proficient in Python and C++, with a strong foundation in ML algorithms, data preprocessing, and model evaluation. Eager to apply academic knowledge to real-world problems and contribute to innovative technology solutions.

EDUCATION

Bachelor of Science in Software Engineering

2024 – 2028

University of Management and Technology (UMT), Lahore, Pakistan

CGPA: **3.97 / 4.0**

- Relevant Coursework: Data Structures & Algorithms, Object-Oriented Programming, Database Systems, Discrete Mathematics, Linear Algebra, Calculus, Introduction to AI, Software Engineering Principles

TECHNICAL SKILLS

Programming Languages	Python, C++
Machine Learning	Supervised Learning, Unsupervised Learning, Model Evaluation, Feature Engineering
ML Libraries & Tools	NumPy, Pandas, Matplotlib, Scikit-learn, TensorFlow (Fundamentals)
ML Concepts	Regression, Classification, Clustering, Neural Networks Basics, Data Preprocessing
Development Tools	Git, GitHub, VS Code, Jupyter Notebook, Google Colab
Soft Skills	Problem Solving, Analytical Thinking, Team Collaboration, Fast Learner

ACADEMIC PROJECTS

AI Exam Checker & Marks Giver

Python, NLP, OpenAI API, Machine Learning

- Developed an AI-powered automated exam evaluation system capable of reading student answers and assigning marks based on semantic similarity with model answers.
- Integrated NLP techniques for answer comparison, keyword extraction, and context understanding to fairly assess subjective responses.
- Implemented a scoring rubric engine that provides detailed feedback alongside marks, simulating a real examiner's evaluation process.
- Reduced manual grading effort significantly by automating the assessment pipeline for short-answer and essay-type questions.

AI Personal Stylist

Python, Machine Learning, Computer Vision, OpenAI API

- Built an AI-driven personal stylist application that recommends outfits and clothing combinations based on user preferences, body type, occasion, and current fashion trends.
- Leveraged computer vision techniques to analyze clothing items and generate style-compatible outfit suggestions.

- Integrated a conversational AI interface allowing users to describe their style goals and receive personalized recommendations.
- Incorporated trend analysis to keep recommendations aligned with seasonal and cultural fashion patterns.

CERTIFICATIONS & COURSES

Complete Machine Learning & Data Science Bootcamp

2024

Udemy

ACHIEVEMENTS & EXTRACURRICULAR ACTIVITIES

- Rector's Award — Fall 2025: Awarded the prestigious Rector's Merit Award for achieving a perfect 4.0 SGPA.
- Dean's Merit Award — Spring 2025: Awarded Dean's Merit Certificate for achieving SGPA above 3.9.
- Dean's Merit Award — Fall 2024: Awarded Dean's Merit Certificate for achieving SGPA above 3.9.
- Dean's Merit Award — Spring 2024: Awarded Dean's Merit Certificate for achieving SGPA above 3.9.
